no one
behind

Our modern society is undergoing a significant digital and ecological transition due to rapidly changing global conditions.

The primary goal of the No One Behind! Project

is to empower adult individuals facing various obstacles - economic, social, cultural, geographical, health-related, migrant backgrounds, disabilities, educational difficulties - to access job opportunities in the emerging digital and ecological field.

To achieve this goal, we have developed the “No one behind” training platform:

<https://noonebehind.eu/platform/>

Four modules explore key aspects of the green transition and job opportunities.

Module 3

Module 4
